Enforcement Cooperation Repository

One of ICDPPC's main objectives is that members are able to cooperate more easily, including through enforcement cooperation activity. Continuous efforts have been made by the conference to improve such cooperation in many ways for more than a decade.

The repository is a place to share links to non-confidential, publicly available information, including, but not limited to, press-releases, publicised research, policy documents, court judgments, guidelines, relevant technology developments, decisions, enforcement tools and applicable laws.

Enforcement Cooperation Resources

Find international enforcement cooperation resources from the ICDPPC and other relevant networks. Resources are listed according to network name and resource type.

Document Library

Find information provided by ICDPPC members or by networks of data protection/privacy authorities, including highlights of their activities in their jurisdiction(s) where they believe that this would be useful for members in other countries who are looking to set up similar activities.

Search for the keyword of your choice, which could be the name of an authority you are interested in or a topic of interest.

This is a living repository, established in 2019. It is intended to feature resources from authority members of the conference who volunteer to participate. Therefore, not all ICDPPC members will be listed here (yet). More resources and authorities will be added on a continuous basis.

Network Resources

The screenshot shows the ICDPPC website's 'Enforcement Cooperation Resources' page. At the top, there is a navigation bar with the ICDPPC logo and menu items: Home, Conference & Executive Committee, News & Events, Members, Documents, and Cooperation. Below the navigation bar, the page title 'Enforcement Cooperation Resources' is displayed. The main content area includes a breadcrumb trail 'Enforcement cooperation repository / Enforcement cooperation resources' and a descriptive paragraph: 'Find international enforcement cooperation resources from the ICDPPC and other relevant networks. Resources are listed according to network name and resource type.' Below this, there is a search bar and a 'Show 10 entries' dropdown. A table lists four resources with columns for Network or Authority, Resource, Type of Resource, and Description of Resource.

Network or Authority	Resource	Type of Resource	Description of Resource
AFAPDP	Member List, and French data protection laws lists	Authority Lists and Registries	
APEC	Cross-border Privacy Enforcement Arrangement	Sharing Confidential Information	Regional arrangement that allows for the request for cooperation assistance by Asia-Pacific participants.
APPA	Member List	Authority Lists and Registries	
APPA	Secondment Framework	Enforcement Cooperation Training and Capacity Development	Provides guidance and templates to authorities wishing to implement a secondment from one data protection authority to another.
